Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 3, 6-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Admitted Prior Art (APA) or EP'017 in view of Yang et al. and Hawtof et al.

The APA or EP'017 disclose a buffer tube for use in a fiber optic cable which comprise a blend or an alloy of polymer materials which are not of polypropylene and polyphenylene oxide as being recited in the claims of the present invention.

However, the use of a blend or an alloy of different polymers as materials for buffer tubes are old and well known. Yang et al. Discloses that it is known to made a buffer comprising an alloy of polypropylene-polyethylene copolymer. Hawtof et al. discloses it is known to use polyphenylene oxide as coating for optic Fibers.

Therefore, it would have been obvious for one of ordinary skilled in the art to construct or provide the buffer tubes of the APA or EP'017 out of an alloy of polypropylene and polyphenylene oxide in view of the teachings of Yang et al. and Hawtof et al. Yang et al. provide the suggestions or motivation for using an

alloy of different polymers as materials for buffer tube construction to provide better mechanical and electrical properties.

Allowable Subject Matter

3. Claims 2, 4-5, and 11 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed with respect to the rejected claims have been fully considered but they are not persuasive. Applicant has not provide a clear or persuasive arguments with respect to the 103 rejection of the claims over the combination of prior art above. Further, in response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
